Summary

A Computer Science student at San Fransisco State University who is passionate about becoming a Web Developer. I love creating things on the web and be very detailed with them. I aspire toward a career that will allow me to channel my creativity through crafting beautiful software and engaging experiences.

Education

San Francisco State University
San Francisco, CA
Aug 2018 – Present

BS in Computer Science

GPA : 3.8

Projects

Wildfire Tracker
JavaScript, React, HTML, CSS, NASA API
This website tracks the wildfires going around the world using a NASA API.
https://burmy.github.io/Wildfire-tracker

Crypto Currency Tracker
JavaScript, React, HTML, CSS
A website that shows Crypto Currency trends. This was made during the time when crypto currency reached its all time high value.
https://burmy.github.io/Crypto-tracker

Face Detecting AI
JavaScript, React, HTML, CSS
A website that detects faces from images taken anywhere from the internet. This was a part of a Udemy course I took during the summer of 2020.
https://face-detecting-ai.herokuapp.com

Robo Friends
JavaScript, HTML, CSS
This app is just a simple user search app and was the first react app I ever created.
